The mark of
responsible forestry

GO GREEN IN JOINERY

Introducing green credentials, Abanos has adopted an aggressive sustainability and green methods as a pioneer in applying the certified FSC in United Arab Emirates, which stands for Forest Responsible Stewardship. Second, the recycling of wastage, from the source of the tree to the production process. At our joinery factory we deal with wood, and so, for every tree cut we have in the factory we are not only certified that we plant two to three trees instead, that we are responsible of the worlds' forest as well.

PROJECTS

ABANOS has been a leading, interior fit-out and joinery compnay in the middle east since 1985. Located in dubai investment park. We boast a huge manufacturing facility of 15000 m2, with a state of art machinery for wood cutting, molding, carving, veneering, laminating and painting.
